Favorite Business Professor: Professor Subramaniam. He has been the most energetic and engaging professor I've had at Tulane. He is thorough and very patient in explaining concepts in new ways to ensure all students understand them. He also provides applications to the concepts so students can understand what careers they may do this in and how they'd see situations play out in the real world.

Academic, extracurricular or personal achievement you're most proud of: I am most proud of my role as Treasurer of the Tulane Consulting Group. I joined the club at its inception and was a part of its second board. My board transformed the club, organizing it, and establishing it as a positive name on campus. I secured the club's first round of funding and registered it with Tulane. The Tulane Consulting Group is now a highly selective business organization that partners with New Orleans non-profits to provide consulting help to drive change.

Top items on professional bucket list: I want to make it into *Forbes* and leave a lasting legacy in the finance world.

Fun Fact: I took circus classes as a child, so I know how to ride a unicycle.
